

# SHAPING SUSTAINABLE FUTURE

Policy Actions for Development

## 5TH GRIHA REGIONAL SUMMIT

7-8 November, 2014.

Nashik Engineering Cluster, MIDC, Nashik

### The Theme

The 5th GRIHA Regional Conference 'Shaping Sustainable Future' will focus on Sustainable Development and Policy Actions that are determining the course of Indian Construction Sector. The building sector is being governed by a number of policy initiatives and the sessions will explore these policy mechanisms to achieve the goal of Urban Sustainability. The audience will also get to learn from exemplary case-studies of buildings which have shown high performance through their design and operations.

### Speakers

The conference will have eminent National and International Speakers sharing their experiences and showcasing their initiatives. These renowned speakers will talk about the Challenges and Opportunities that our cities face now and will do in the future, regarding management of natural resources and minimum impact on the environment, and how these can be tackled through an informed Sustainable Development leading to a Green Future.
