

The Energy and Resources Institute

GRIHA Pre-certification*

In accordance with the Office Memorandum issued by the Ministry of Environment and Forest (MoEF), Government of India, GRIHA pre-certification shall enable out of turn consideration for Environmental Clearance. All buildings including offices, retail malls, institutions, hotels, hospitals, health care facilities, residences, and multi-family high-rise buildings (with the exception of industrial complexes) in the pre-design/design stage are eligible for pre-certification under GRIHA.

- For built up area greater than 20,000 sq. m, it is mandatory to register the project under GRIHA rating after pre-certification has been awarded.
- For built up area less than 20,000 sq. m, projects can be registered for GRIHA pre-certification and GRIHA rating at the same time.

How to register for GRIHA Pre-certification?

- Step 1: Fill the Expression of Interest (EOI) online and submit to the GRIHA Council
- Step 2: Submit the proposed development plan for the project and some recent date stamped site photographs.
- Step 3: The GRIHA Council shall review the application for registering the project under GRIHA pre-certification.
- Step 4: Once approved by The GRIHA Council, the project can proceed with payment of fee and project registration for GRIHA pre-certification.

*Evaluation process shall be completed within a month by The GRIHA Council; however, this is subject to timely and proper submission by the client.
