15TH GRIHA SUMMIT

“Empowering sustainable and resilient communities”

Communities stands at the core of climate action. Representing the strength to drive sustainable & resilient development, they are the driving force for a building a sustainable future. The 15th GRIHA Summit poses a great opportunity to:

- **Foster** sustainable & resilient development by empowering local communities.
- **Recognize** community groups that have achieved sustainability milestones with commitment & dedication.
- **Identify** facilitators of holistic development & **explore** innovative solutions to empower sustainable & resilient communities.

INTENT OF GRIHA SUMMITS

PROMOTING SUSTAINABLE AND CLIMATE RESILIENT PATHWAYS IN BUILT ENVIRONMENT

Awareness & Knowledge Sharing

Foster knowledge dissemination & exchange of ideas, share best practices and research findings

Support Research & Innovation

Provide platform for showcasing & highlighting innovative solutions, cutting-edge technologies, case studies & success stories

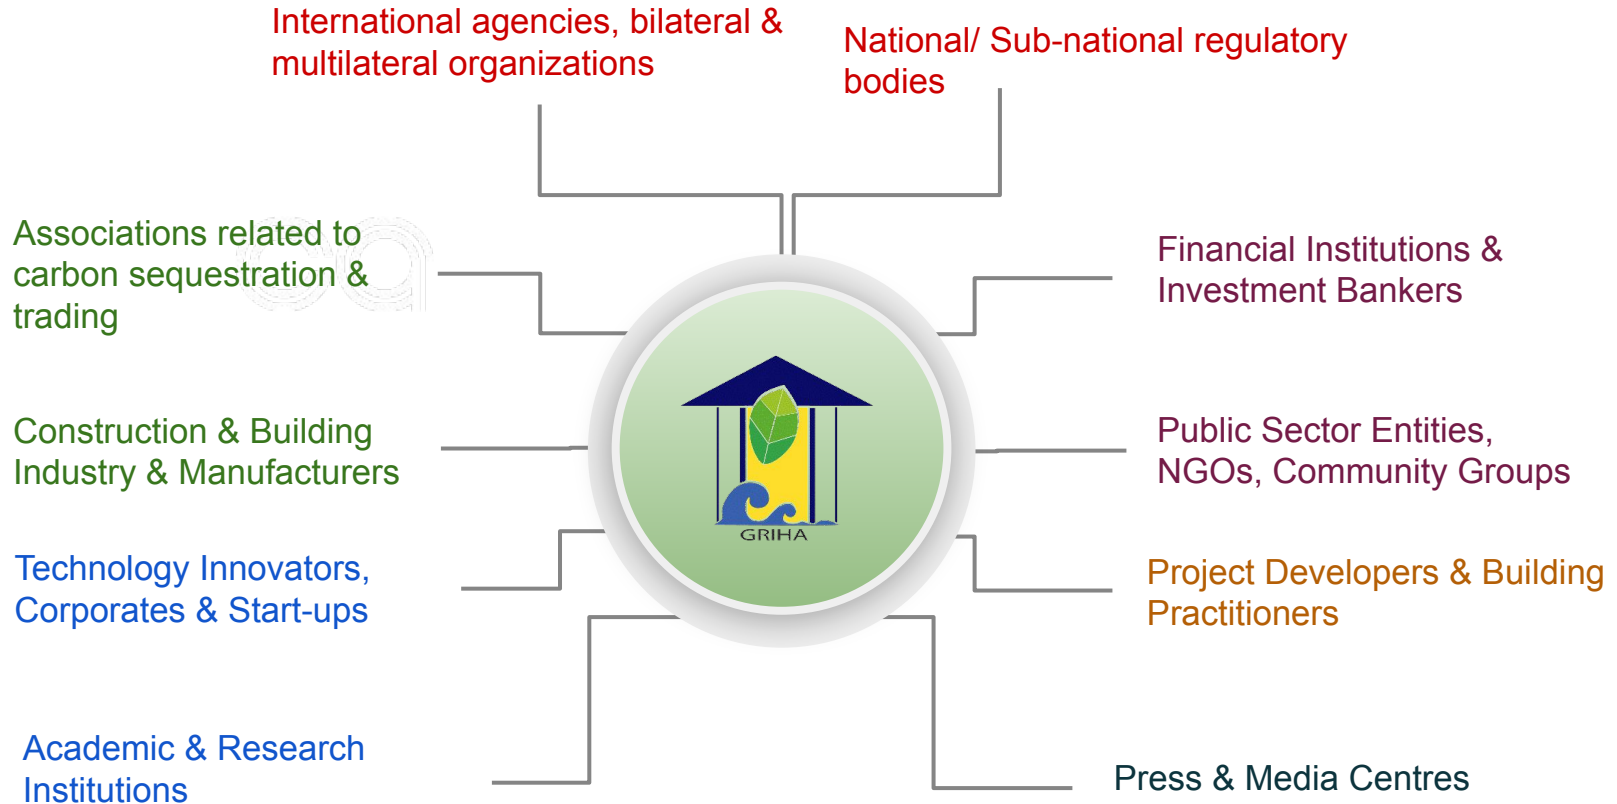

Foster Global Outreach & Collaboration

Strengthen the network of individuals & organizations by fostering partnerships towards building climate positive pathways & sustainable development

Policy Advocacy

Advocate for sustainable, effective and comprehensive policies by bringing together multiple stakeholder groups

EXPECTED STAKEHOLDERS

GRIHA COUNCIL

We, at GRIHA Council, stand for credibility, integrity and inclusiveness, while upholding Indian ethos for future-ready and sustainable habitat.

- ❖ Acts as a catalyst in providing transformative actions for a paradigm shift in the construction and building industry towards adoption of sustainable practices.
- ❖ Provides diverse rating variants, certifications, products & services aligning with the national & global vision.
- ❖ Recognized as a powerful tool to evaluate resource efficiency in the built environment as India's own national green buildings rating system.
